Genshin impact how to use primogems for wishes. Genshin impact primogems use reddit.

Primogem is the most valuable resource in Genshin Impact, and because of that, players should take careful consideration when spending them. This goes double for free-to-play players and light spenders, as they don't have that many primogems to spend. In this article, Gurugamer is going to showcase how to spend primogems in Genshin Impact effectively as a free-to-play/light spender. 1. Plan around Pity Genshin Impact banners have a very low rate of spawning a 5-star character (0.6%), so players mainly get their 5-stars via the game's Pity System. On the limited banners, you are guaranteed a 5-star on your 90th pull if you do not get one within 90 pulls. Once you get a 5-star character, this 90 wish timer is reset. The Pity system makes Genshin Impact's lower rate less predatory. However, this is not that straightforward - there is only a 50% chance that you would get the limited 5-star character on the limited banner. If you fail the 50/50, you would get the 5 stars from the standard banner. However, when this happens, you are guaranteed to get the limited character on your next successful 5-star pull. 2. Pull on the right banner If you don't have any character you particularly want, it is best to follow the meta and get the highest-tier characters. For example, the upcoming Kazuha rerun banner in 2.8 is definitely worth skipping all banners in 2.7 for, as Kazuha is just too useful as a character. Getting a strong character that can be used in multiple teams is something new players need to do. This goes double if you are a new player. Characters in Genshin Impact use ascension materials from their home region. This means a new player in Mondstadt would not be able to level an Inazuma character up any time soon. Therefore, to have an easier time playing, it is best to pull on some of the older more reliable banners first. 3. Avoid pulling on the weapon banner There is a moderately big gap between 4-star weapons and 5-star weapons in Genshin Impact. While the former is easier to refine, the latter has much more powerful skills and stats that are sometimes designed for a character. For example, the Redhorn Stonethresher is one of the two Claymore with DEF substat, and with the other one being a 3 star, it becomes the only optimal choice for Noelle. If the weapon banner is that useful, why should you avoid it? Well, the weapon banner has its own pity, and it is much more unforgiving than the character banner. While the amount of pity is only 80 and you have a 75% chance of getting the featured weapons, the tricky part here is that there are two of them. You should only wish on the weapon banner when both of the featured weapons are very strong. This means the chance to get your wanted weapon is only 37.5%, lower than the character banner's 50%. Players need to use "the Epitomized Path" system to build pity toward the weapon they want, and in the worst-case scenario, they will need to miss the weapon twice in order to guarantee the next 5-star drop. Epitomized Path does not carry over to the next weapon banner, only the 75% chance does. >>> Read more: Best Kuki Shinobu Team Comps In Genshin Impact 2.7 (Electro Support) Are you new to Genshin Impact and wondering how to get new characters and weapons? Well, players should have enough Primogems to buy 'Wishes'. You need at least 10 Wishes to get a 4-star character and 90 Wishes for a 5-star one. Each Wish will cost you 160 Primogems. But if you are new, you should first explore Mondstadt, and focus on completing quests, daily missions, reaching high adventure rank as you don't need new characters at initial levels. In case you are not aware, the main character that you get for free is a 5-star one. When you reach level 20, this is where the actual game begins and you will feel the need to have well-developed characters or weapons to win any battle. For now, let's talk about how you can earn thousands of Primogems. Genshin Impact: How to easily earn thousands of Primogems Spiral Abyss (express Image) Spiral Abyss Spiral Abyss is one of the best ways to earn thousands of Primogems. However, it is also one of the toughest challenges of the game and will require quite a few attempts on a floor to clear efficiently. Speaking of which, you need to clear eight floors if you want a total of 2,400 Primogems. Each floor gives 300 Primogems and each floor has three chambers that you need to clear at once. Once you enter the first floor, you need to beat all the enemies in a limited period to earn stars. If you manage to earn enough stars, then you will get 300 Primogems. Note that you need a minimum of six stars to proceed to the next floor. There are certain restrictions in Spiral Abyss when challenging three chambers consecutively. You are not allowed to change party members, or consume food, or change artifacts/weapons, or level up/ascend characters. Once you clear all the eight floors, the game will unlock four more floors (9-12) and each floor will offer 450 Primogems. The game resets if you don't complete the last four floors. If you complete floor 11 and the game resets before reaching floor 12, then you can play again from floor 9 and keep earning Primogems. So, you get 1,800 Primogems after completing the last four floors. Spiral Abyss gives a total of 4,200 Primogems if you complete 12 floors; however, it is not very easy to finish these floors all at once. You will require powerful characters (& weapons) as and when you move ahead in the game. Adventure Handbook Adventure Handbook is yet another way to get a lot of Primogems. However, this depends upon how fast you can complete each chapter. In the Experiences section, you will find chapters and each one of them offers a lot of Primogems. There are small missions that you need to complete. Once you finish the first four chapters, you will start getting 100 Primogems as initially you only get 50 from each chapter. Genshin Impact: How to get Primogems for free? You get 300 Primogems for free when the new version of Genshin Impact arrives. (Express image) Monthly rewards: There is a website for Daily Check-in rewards. It offers different rewards if you check in daily with your miHoYo account. The players also get a maximum of 60 Primogems a month. Apart from Primogems, the site even gives Fowl, Mora, and Adventure's Experience, among others. Genshin Impact live stream event: miHoYo gives free Primogems every time a new update is released, once in six weeks. Every version always offers 300 Primogems for free and 60 Primogems (as compensation) per additional hour of server maintenance. However, you will need to be on Adventure Rank 10 to redeem free Primogem codes in Genshin Impact. Genshin Impact Login event: The game sometimes blesses you with log-in events that remain valid for a limited period. All you need to do is log in daily till seven days to earn a lot of Primogems for free. However, this is a rare event and you should not rely on it. Test run: There is a 'Test Run' tab under the 'Events Overview' section, which lets you gain 20 free Primogems for testing the new character that the game has released. If there are several characters, then you might get a chance to win more than 20 Primogems. Genshin Impact: Other ways to farm lots of Primogems Genshin Impact Battle Pass (express Image) Battle Pass: If you complete 50 Battle Pass (BP) levels, then you will earn 680 Primogems. It is not hard to finish each BP level. You just need to complete your BP missions on a daily basis, which will not take much time. It is important to note that BP is available at Adventure Rank 20. The Battle Pass levels provide other resources, including Adventurer's Experience, Mystic Enhancement Ores, Moras, Hero's Wits, and more. Daily commissions: The game offers four daily commissions every day and each one of them gives 20 Primogems. It takes less than 10 minutes to complete these commissions. After that, you need to visit Katheryne who will reward you with 20 Primogems for completing commissions. Katheryne is a receptionist and you will find her in Mondstadt or Liyue city. It is important to note that Daily Missions are made available when you reach Adventure rank 12. Genshin Impact special events: The special events include a lot of missions and once you complete each one of them, you are rewarded with Primogems. The reward may vary from 10 to 60 Primogems. For instance, the Windblume festival and Lantern Rite event offered more than 1,000 Primogems. Achievements: There is an Achievements section in Genshin Impact. When players complete a number of achievements, they get up to 100 Primogems. You can also directly visit this section and see the missions to obtain Primogems after completing them. Players should first try and finish those achievements that give 10 or 20 Primogems. Genshin Impact General Quests, Archon Quest: The general quests or missions that you get offer some reward as well as Primogems. The rewards for the Archon quest are much better and may vary from 60 to 180 Primogems. Genshin Impact Chests: If you have played the game, then you know that the Chests are literally scattered all across the world of Genshin Impact. There are different types of chest and each one of them offers rewards, including Artifacts, Primogems, and more. The Common chest will give 0-2 Primogems, Exquisite chest 2-5, Precious chest 5, Luxurious chest 10-40, and Shrine will offer 40 Primogems. You don't need to go look for them as there is an interactive map that you can use to spot chests (or anything else) in Genshin Impact. Adventure Rank: Lastly, when you complete each Adventure rank, Katheryne gives you rewards that may include Wishes, Primogems, or anything else. The good thing is you get 100 Primogems for leveling up to certain Adventure ranks. Image: Hoyoverse Genshin Impact's patch 3.1 preview livestream has wrapped up, showing off the huge desert area coming to Sumeru soon. The new update will launch the night of Sept. 27 and will go hand-in-hand with the game's second anniversary. The meat of the livestream (other than showing off the new content) is the three livestream codes that reward free Primogems. Our Genshin Impact 3.1 livestream code guide lists them out in an easy-to-claim format to grab those Primos. The codes are as follows: 3B6RY7AHX9D JT78YH7SGWRZ 2BP9HY6BYFR5 You'll want to redeem these codes quickly, as they expire on Sept. 17 at 12 a.m. EDT. They not only reward Primogems, but they also give Mora and Adventurer's EXP to level up your characters. How to redeem Genshin Impact gift codes To redeem codes, you can log in and input them on the code redemption website. You can also input them in-game through the settings menu, but copying and pasting them in a browser is much easier. You can also click the links above, if you're logged in on whatever device you're seeing this post on. Once you redeem the codes, you'll get the rewards via in-game mail shortly after that.
